randy.watson@atkearney.com

Session Code: TF

Program Description:

Learn best practices in supply chain carbon emissions reduction from recently completed study, "CDP Supply Chain Report 2010" by A.T. Kearney and the Carbon Disclosure Project.

Randy Watson is a Partner with A.T. Kearney and heads the Atlanta office. With over 20 years of industry and consulting experience, Watson has been actively involved in planning, shaping, and transforming supply chain operations across various industries.

Since joining A.T. Kearney in 1997, his primary focus of work has been in the supply management and procurement space. Watson has assisted international organizations to develop and implement global supply management strategies, transform their procurement operations, and reduce complexity of their operations and supply chain. In addition to his client activities, Watson also co-leads A.T. Kearney's Assessment of Excellence in Procurement study – the global gold standard of supply management best practices. He also participated in the joint A.T. Kearney and Carbon Disclosure Project Supply Chain 2010 report.

Prior to A.T. Kearney, Watson held management positions in marketing and finance at MCI Communications (now part of Verizon Communications). He is a member of The Institute for Supply Management. He holds a Bachelor of Science (BS) degree in commerce from The University of Virginia and a Masters of Business Administration (MBA) from Emory University.
